## DIAMOND FOOT ANTI-FATIGUE MAT

- Chemical resistant hardwearing vinyl surface will resist most chemicals and is easy to clean and maintain
- Vinyl surface is fused to a foam base which means the mat will not delaminate or bubble creating a trip hazard
- Resilient closed cell foam underlay provides a high level of comfort and longevity
- Provides a high level of comfort for workers standing for long periods
- Available in standard black or with yellow safety borders

Code	Size (W x Lmm)	Thickness
MDF23	600 x 900	14 mm
MDF35	900 x 1500	14 mm
MDF600	600 x cut to size	14 mm
MDF900	900 x cut to size	14 mm

## SLIP TECH MAT

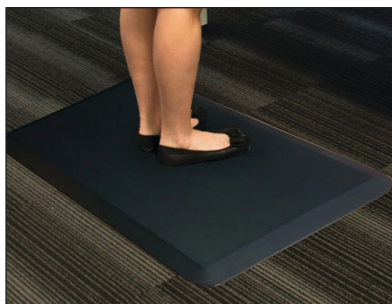

- Hard wearing vinyl surface with a non slip design provides a high level of traction
- Rubberised vinyl surface resists most chemicals and acids
- Ergo Flex closed cell foam base is fused to the vinyl surface to eliminate delamination
- Closed cell foam base bonded to the rubberised PVC surface gives a high level of comfort

Code	Size (W x Lmm)	Thickness
MST23	600 x 900	16 mm
MST35	900 x 1500	16 mm
MST600	600 x cut to size	16 mm
MST900	900 x cut to size	16 mm

## COMFORT STAND II

Comfort Stand II is an ultra-comfortable anti-fatigue and anti-slip mat. It is made from thick, dense, durable, single piece Polyurethane closed cell foam. Comfort Stand II is used to sit/stand at desks, or at check-outs, concierge areas, counters, domestic kitchens, meet and greet areas and workstations.
